

Church security guidance

The protection of stained glass windows

These notes set out Ecclesiastical's eligibility criteria for a premium discount where churches wish to consider protecting their stained glass windows.

All external windows containing stained, painted or engraved glass, must be externally protected by stainless steel grilles or polycarbonate sheeting which entirely covers the window in order to qualify for a premium discount.

In the case of polycarbonate sheeting, care should be taken to allow for ventilation.

Installation

The installation of such protection is a specialised matter and should only be entrusted to a glazier or builder well experienced in installing such protection and in working on church buildings.

Important notes

A Faculty may be required for the protection of windows and the Diocesan Advisory Committee should therefore be consulted at an early stage and prior to any work being carried out.

It is the responsibility of the party implementing the above specification to ensure that the implementation does not contravene any statutory or Local Authority requirements, eg under the Health and Safety at Work Act, Regulatory Reform (Fire Safety) Order, etc.

Photographs

It is important to take photographs of all stained glass windows. Although a general shot of a window is helpful, these often do not provide sufficient detail for a stained glass restorer. More detailed photographs are needed. Heads, hands, draperies, landscapes and wildlife elements are the most difficult to replicate. Consider the lighting; ensure that you photograph west windows in the morning and east windows in the afternoon.

Need to contact us?

For further advice Ecclesiastical customers can call our risk advice line on **0345 600 7531** (Monday to Friday 9am - 5pm, excluding bank holidays) or email us at **risk.advice@ecclesiastical.com** and one of our experts will call you back within 24 hours.
